

Qelsey Zeeper

[Female] Mid 20's to 30's, 5'10" Tall brunette with a commanding presence and grounded authority...*and completely bankable*. Quietly poised with elegance, a powerhouse CEO that goes eye to eye with any man in a suit. Then can rip around on her dirt bike after work. Think young sister to Missy Peregrym ("Rookie Blue"), with an athletic physique and ability to practice her own stunts. The mix of Jennifer Garner and Hilary Swank, served with a side of quick wit and charm.

She plays a thrill seeking, spontaneous go-getter with a heart of gold. Quick to protect her vulnerability she presents a strong exterior and is secretly afraid to appear weak. She could have played Maggie on *Falling Skies*, tough and fearless, but also a good friend who offers a helping hand when needed.

For political drama, she's the confident authority, a Congresswoman dressed in her power suit, yet alone in her office debilitated by her insecure doubts of her contributions to the greater good. She is Laurel Lance in *Arrow*, the protective sister and headstrong attorney who can go from the courtroom to the streets and hold her own in a physical confrontation. She should have played Sydney Bristow on *Alias*.
